National Institute of Allergy and Infectious Diseases

Staff Clinician

The National Institute of Allergy and Infectious Diseases (NIAID), Division of Intramural Research (DIR), Laboratory of Allergic Diseases (LAD), is seeking an outstanding staff clinician to participate in clinical research on diseases of mast cell dysregulation, including mastocytosis, anaphylaxis, and urticaria.

The staff clinician is responsible for supervising clinical protocols and providing standard medical care at the Clinical Center on the National Institutes of Health (NIH) campus in Bethesda, MD. The staff clinician will also have the opportunity to participate in the NIH Clinical Center's Allergy and Immunology Consultation Service and in the training of clinical fellows in the ACGME-accredited NIH Allergy and Immunology Clinical Fellowship Program. Qualified candidates will be licensed physicians, eligible to be credentialed to practice medicine and perform patient-related research, who are board-certified in internal medicine or pediatrics. Eligibility for subspecialty certification in allergy and immunology, hematology, or rheumatology is preferred. Salary is dependent on qualifications and experience.

NIAID

Interested candidates may contact Dr. Dean Metcalfe, Chief, LAD, at dmetcalfe@mail.nih.gov, for additional information about the position. To apply, submit a curriculum vitae, bibliography, names of three references, a statement of clinical research interests, and reprints of up to three selected publications to NIAID, DIR, LAD, Office of the Chief, Attn: Sarah Austin, 10 Center Drive MSC 1881, Building 10, Room 11C207, Bethesda, MD 20892-1881.

For further information about NIAID and other available career opportunities, visit us on the Web at www.niaid.nih.gov/careers/lad.
